

Important Information Regarding Relay Iowa

Relay Iowa is a specialized service that guarantees all citizens access to prompt, professional and accurate communication through the telephone. Consumers of these specialized services, specifically individuals who are deaf, deaf-blind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Spanish and Captioned Telephone in order to connect with family, friends or businesses with ease.

Here's how Relay Iowa works:

Dial 711 or the appropriate toll-free number provided to connect with Relay Iowa. A specially trained operator, called a Communication Assistant (CA) will ask for the area code and number of the person you wish to call and will begin relaying the conversation. Generally, the CA will voice the typed message from the text telephone (TTY) user to the person on the other end. The CA then relays the spoken words by typing them back to the TTY user. All calls are held strictly confidential.

Specialized Services:

Relay Iowa offers specialized services for individuals who have difficulty speaking and for Spanish speaking residents. Specially trained CAs are on hand to assist in these types of calls and may be reached by dialing the associated number provided on this page. Since Relay Iowa offers a variety of services, please refer to the website listed or call Relay Iowa Customer Care for more detailed instruction on how a particular call is processed.

Captioned Telephone is also available and ideal for individuals with hearing loss who are able to speak for themselves. A captioned telephone works like any other telephone with one important addition: it displays every word the other person says throughout the conversation. Captioned Telephone users can listen to the caller and read the captions on the display window of the captioned telephone.

Access to Services:

Both 711 and the 800 numbers are toll-free calls and provide access to the same relay services. If you are experiencing trouble dialing 711 to reach Relay Iowa, please call Relay Iowa Customer Care.

All services are available 24 hours a day, seven days a week. Consumers may place relay calls to English and Spanish speaking persons within Iowa, across the United States and even internationally. By law, each conversation is handled with strict confidentiality. There is no charge to access Relay Iowa, although standard long distance charges apply.

Relay Iowa and the Iowa Equipment Distribution Program are both programs of the Iowa Utilities Board.

To place a call using Relay Iowa, dial 711
or dial one of the toll-free numbers below:

TTY/ASCII: 1-800-735-2942

Voice: 1-800-735-2943

Spanish: 1-800-264-7190

Captioned Telephone

Customer Service: 1-888-269-7477

To call a Captioned Telephone user, dial:

1-877-243-2823

Special points of interest:

- **Iowa Equipment Distribution Program**
The Iowa Equipment Distribution Program, called Telecommunications Access Iowa (TAI), helps pay for specialized equipment for residents of Iowa who are deaf, deaf-blind, hard of hearing or have difficulty speaking. Qualified individuals can receive a voucher for approximately 95% of the average cost of specialized telephone equipment. To apply online, go to: www.relayiowa.com/tai/ or call 1-800-606-5099 Voice/TTY.
- **Emergency Calls**
Please note that 711 is only to be used to reach Relay Iowa. In an EMERGENCY you should continue to use 911. For emergencies, call 911 or your local emergency service TTY number directly. The Americans with Disabilities Act (ADA) requires that all 911 centers have a TTY and be prepared to handle emergency calls placed in this manner. Relay Iowa will make every effort to assist you in an emergency. However, it is important to understand that relay centers are **not** 911 centers and do not assume responsibility for emergency calls.
