Traffic identified as non-IP Originated is subject to incremental surcharge per minute on all calls.

(b) Each call's jurisdiction shall be determined by the geographic original point attributed to the outpulsed, valid Automatic Number Identification (ANI) and Customer's called number. Customer is required to utilize and outpulse ANIs that are registered with the North American Numbering Plan Administration (NANPA) and which have been provided to Granite prior to outpulse. Unless otherwise approved by Granite in its sole and absolute discretion, Customer may not outpulse anonymous phone numbers, defined as those numbers that do not conform to a Customer-provided ANI (i.e. 8XX) or otherwise have an indeterminate jurisdiction. Any such blocking request that is not in writing will not be valid. For the purpose of call blocking, "international" refers only to those calls using a 011 prefix. Thus, for example, phone calls from the United States to Canada are not International calls and cannot be blocked. It is Customer's responsibility to understand the limits on any call blocking functionality. Granite, in its sole discretion, may block calls to certain countries based on the risk of fraud, provided, Customer may request Granite to unblock such countries and in such event shall be responsible for all calls to such countries.

(h) A call is considered completed when it is answered by either a live person, or by voicemail systems, answering machines, private branch exchanges, or interexchange switching equipment. Granite begins billing at call pickup. In the event more than forty percent (40%) of total call attempts (inbound, outbound or toll free) in a billing period are abandoned or incomplete for any reason, Granite reserves the right to disconnect the seat/circuit and/or to charge, and Customer shall pay, an additional surcharge per abandoned call during such billing period.

(i) If in any given month more than ten percent (10%) of Customers calls are six (6) seconds or less in duration ("Short Duration Calls"), then Granite will assess a surcharge for such Short Duration Calls per call.

(j) During the Service Term, Granite will monitor Customer monthly call distribution and identify excessive traffic originating from or terminating to a high cost area ("HCA") defined as high-cost LATA's/OCN's and certain non-Regional Bell Operating Company areas. If the total amount of HCA minutes exceeds 30% in a given month, then a surcharge will be applied to all minutes in excess of 30% in the following invoice.

(k) Granite reserves the right to monitor Customer's calling patterns. Should Granite determine Customer has exhibited calling patterns that are uncustomary or exceed normal outbound to inbound ratios, Granite reserves the right to assess either a one time or rate per minute surcharge on all inbound calls.

(l) International calls terminating to a wireless device, such as a cellular phone, pager, personal computer, or personal digital assistant may have a separate higher rate applied. Customer shall be responsible for payment of any additional charges as a result of the applied rate, which will appear as an international mobile termination charge on Customer's bill.
