### **The Lord's Place receives \$6,219 donation from Granite Telecommunications**

The Lord's Place recently received a donation of \$6,219 from Granite Telecommunications. The funds were raised from donations made by employees during two "dress down" days.

Granite Telecommunications is one of the premier telecommunications solutions providers for businesses across the United States and Canada. It recently expanded its operations in Palm Beach County and opened a West Palm Beach Sales Office, where its services include telecommunications, data, networking and other communications and alarm services. The new office will accommodate a sales force more than four times the size of the organization's former sales office in the state, which was located in Boynton Beach.

Granite Telecommunications Regional Manager Greg Giambalvo said he was pleased to support a cause as worthy as the mission of The Lord's Place to help the homeless as one demonstration of the company's commitment to the community. The Lord's Place CEO Diana Stanley accepted the donation and said she was

especially pleased that the donation came directly from employees to help the homeless.

The company is headquartered in Quincy, Massachusetts where it was recently recognized by the Boston Business Journal as one of the region's top corporate charitable contributors. Giambalvo was joined by Michael Bischoff in presenting the latest donation to The Lord's Place.
