

Granite Telecommunications to support PATHWAY CARING FOR CHILDREN®

Granite Telecommunications, located here in Quincy, provides the opportunity to its staff to suggest and support charities in various ways throughout the year. Twice each month, employees participate in a "jeans day" -- with a donation of \$3 (which is then matched by **Granite Telecommunications**), employees can wear jeans and contribute to a charity one of their peers has recommended for support.

This Friday, Granite will support **PATHWAY CARING FOR CHILDREN®** (a non-profit community service providing treatment-oriented care for displaced children and their families). Recently, the annual **GRANITE DAY** Event yielded over \$150,000 for the Dana Farber Institute Cancer Research center.
