## EMULATED POTS SOLUTION

Granite’s Emulated POTS, Granite Merged Voice, is a cloud-based service that delivers digital voice to an analog device, reducing and eliminating infrastructure change. Granite Merged Voice services are scalable for businesses with multiple sites or businesses with a large concentration of employees at a central location. As a managed voice service, Granite Merged Voice can be easily integrated with all types of communication systems and help streamline your business operations.

## FEATURES

- Local and Long Distance
- Caller ID
- Call Waiting and Forwarding
- Directory Listing
- Operator Assistance
- Facsimile (Fax)
